PRESIDENT'S MESSAGE

The 1977 Carontawan will be an important reminder of your Mansfield experience. It will serve as a kind of a memory bank, recalling many of life's parts revolving around your four years at Mansfield.

Mellowing with time, changing as we age and as our perception of self and college change, the Carontawan will take on a chameleon-like quality and assume values that even the editors can't see at the moment.

In more subtle ways, it is a measure of what we might become. Leadership roles, the display of talent, the indicators of academic acumen --- these, reported as the present may be true measures of how well we have prepared you to face the challenge now confronting you.

If the editors of the 1977 Carontawan have been successful in their choice of selected content to remind us of what we are now, as well as the potential ahead for us, this book will be a source of inspiration and a memorable historical book of our Mansfield years.

LAWRENCE PARK
President

Dr. Lawrence Park, President

Memorium

His name was Ed Gassner, and he was, among other things, a professor in the biology department.

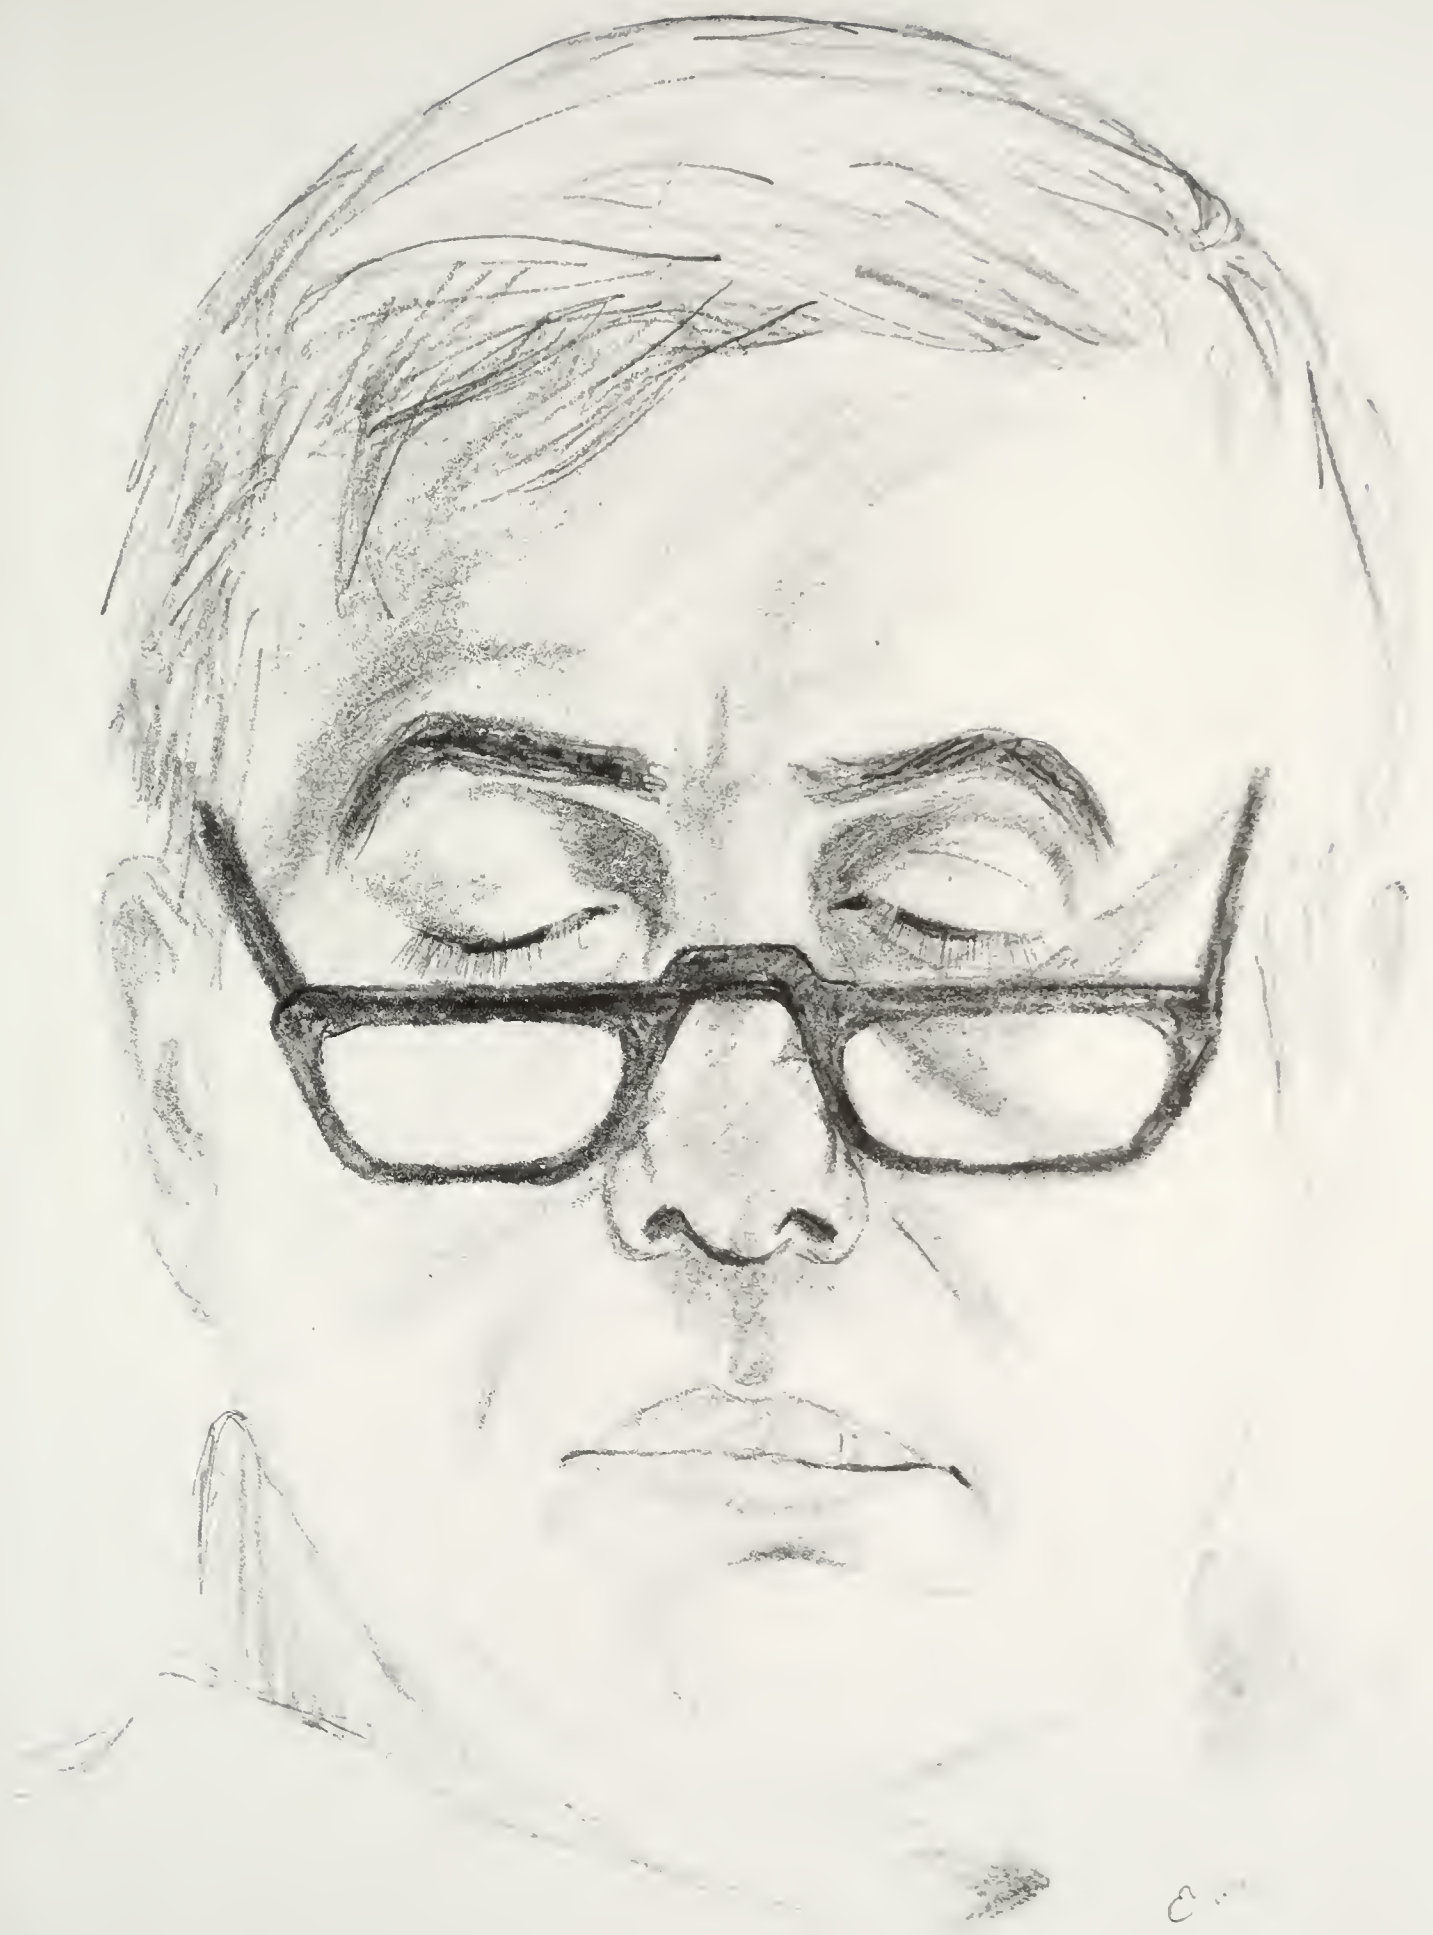

What appealed most about Dr. Gassner were two things: first, he wasn't afraid to be himself, and second (and most important), the self he was trying to be was worth being.

Creativity was a vital part of his life, and the essential aspect of a creative person is that he sees his function is not to be, but to become. He was an up-to-date scientist with a Ph.D., publications in biochemistry, and interest in bio-ethics and radiation biology. He was something of an accomplished photographer, painter, and writer, an avid gardener, and a good carpenter.

Dr. Gassner saw being right here at M.S.C. as a terrific set of opportunities. He was enchanted by the things you could do and learn at Mansfield, by the help and encouragement that were so willingly given, and by the wealth of information that was his merely for the asking at the library and elsewhere. Learning and doing were exciting for Ed. Gassner.

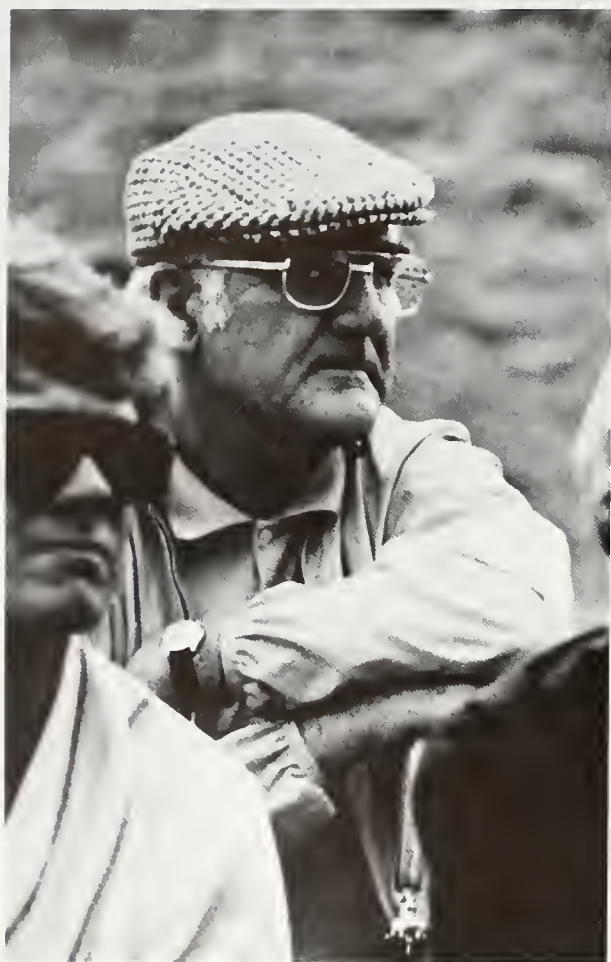

His death had something of the symbolic and quixotic aspects of his nature. He died planting potatoes in his garden. His last activity was focused firmly on the future, but like the last activities of all of us, it was left incomplete. And yet — the potatoes found a way to grow. There are much worse ways of living and dying. Much worse ways.

we move into the future.

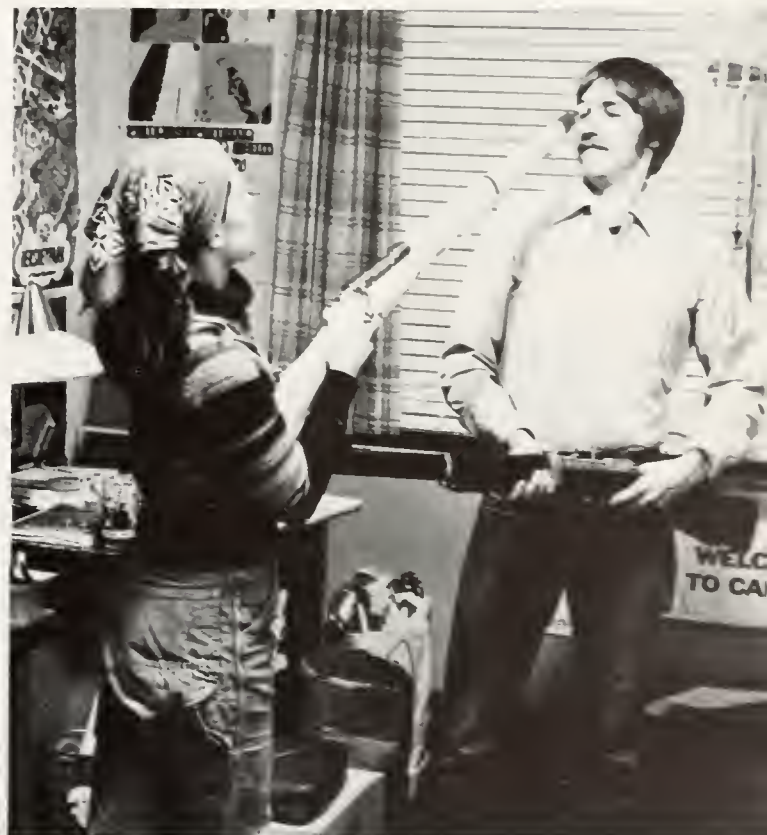

We did some clowning ...

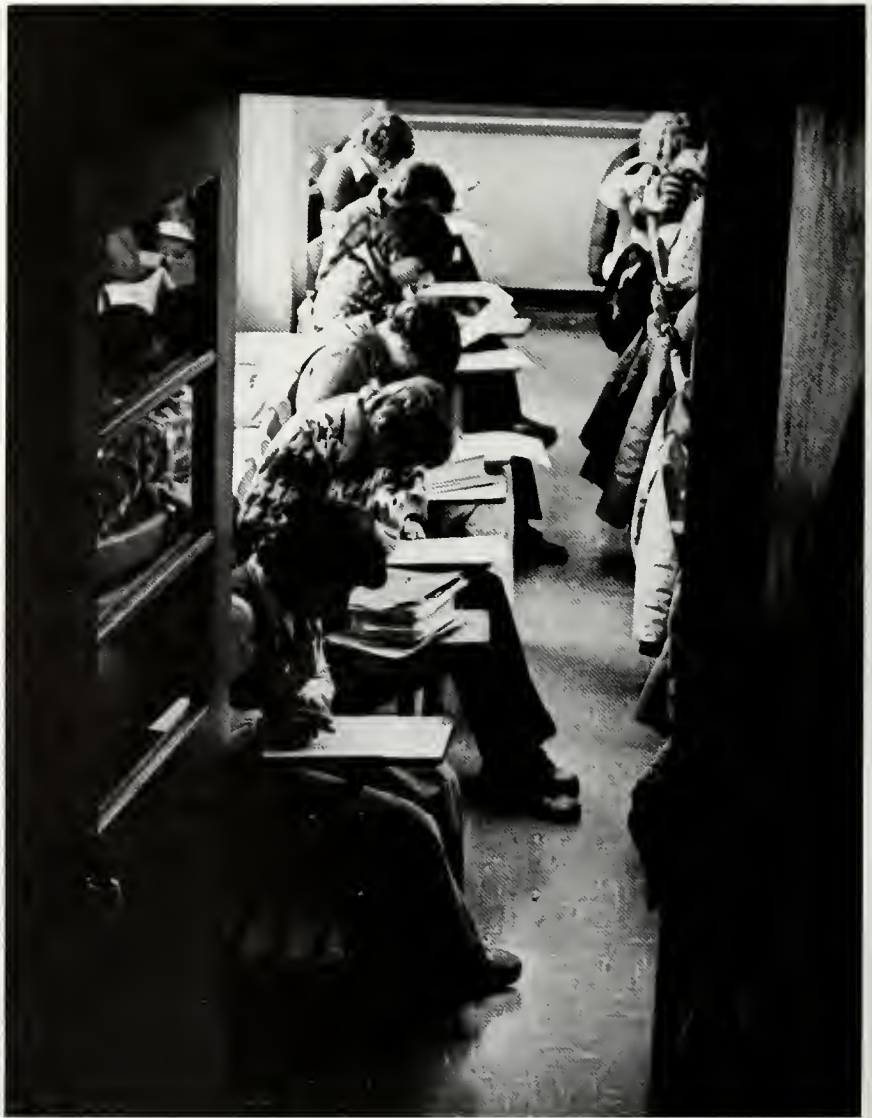

Took our dares ...

Expanded our horizons . . .

and our waistlines ...

but "our answer is the worlds hope:
it is to rely on youth —
not a time of life but a state of mind,
a temper of the will,
a quality of the
predominance of courage over timidity,
of the appetite for adventure over the love of ease."
Robert F. Kennedy

A New Look For The Mountie Band

A new marching style developed this year by the Mountie Marching Band received a standing ovation at its first appearance of the 1976 football season.

The general philosophy of marching bands is changing. More and more schools are going to the corps style of show. We have been considering this change for the past three years and it was felt that this was the year to make the change.

Field formations were designed to enhance the quality of the sound of the music and to create a complementing effect. With the former style of precision marching, instruments within the band were turned in various directions and the quality of the sound was lost. With the new style more control of instrument direction is achieved and the quality of sound is greatly improved.

Countless hours were spent putting the new style together. Students had to develop confidence in their own abilities. There were many frustrating moments at the beginning of the season. Changes were being made constantly, even up to the rehearsal for the final show.

The band tries to perform what appeals to the audience, making changes to suit what the audience will best respond to. Often subtle changes, such as rewriting the finale to a different key to bring out a better sound, will develop stronger audience reaction.

Capping off the successful transition, the new marching style was presented to nearly 70,000 people at Shea Stadium in New York City during the half time of the New York Jets — Miami Dolphins game on November 7.

The 1976 Mountie Band Staff is as follows:

Richard N. Talbot — Director

Donald Kuhns, David Burkhardt — Graduate Assistants

Ronald Blahusch — Sr. Drum Major

David Cross — Jr. Drum Major

Glen Brumback — Field Captain

The Flashlight is published weekly by the students of Mansfield State College for the entire campus and community. *The Flashlight* office is located in Memorial Hall, room 217.

News may be submitted by calling 662-4015, or by depositing it in the envelope outside the office door. The deadline for each week's issue is that Monday at noon. All letters to the editor must be signed, but names will be held upon request.

Opinions expressed by the columnists, cartoonists, and feature writers do not necessarily reflect the views of the editor, the staff, or the college itself; but are those of individuals exercising their right to fair comment and opinion.

Typical Flashlight patriotism .

SIGMA ZETA NATIONAL CONVENTION

On April 14-16, 1977, Lambda chapter of Mansfield State College hosted the 48th annual Sigma Zeta Convention. Nearly 100 student members from 14 nationwide chapters attended.

Sigma Zeta is an honorary science and math society so it was fitting that a majority of time was devoted to the presentation of student papers ranging from biology and chemistry to physics and computer science. Other activities included trips to Corning Glass and the Grand Canyon, a Planetarium show and nonstop film show, the election of National Officers, and various business meetings. Highlights were the awarding of the Founder's Cup to the most active chapter and presentation of Honor Awards for personal scholarship and achievement within Sigma Zeta.

The convention culminated in a banquet Friday night in Manser Cafeteria followed by a guest speaker in Straughn Auditorium. Afterwards, the students were invited to an informal party. All members expressed enjoyment and are looking forward to next year's convention at Anderson College in Anderson, Indiana.

EPILOGUE

I shall not pass this way again. Any good thing that I can do, or any kindness that I can show, let me do it now! Let me not defer it or neglect it. For I shall not pass this way again.

Time is not measured
by the passing of the years
but by what one does,
what one feels,
and what one achieves.

— Jawaharlal Nehru

Can you have hope for tomorrow's world without the experience of yesterday's?

Can you be so busy teaching others without having time for learning from others?

Can you have real knowledge and also fear new ideas?

Can you be secure without growth, reform, and change?

— David Dolis
